

THE VERNON RECORD

VOLUME NO. 11

VERNON, WILBARGER COUNTY, TEXAS, FEB. 12, 1918

NUMBER 8

PRESIDENT NAMES 4 TESTS TO PROVE GERMAN SINCERITY

Nation's Chief Tells Congress
Making of Peace by Russia
and Sinking of *Tuscania* Will
Be Answered by Sending More
American Troops to Fight
the Huns.

An Amsterdam dispatch to the effect that Russia has concluded peace with Germany and ordered the demobilization of Russian forces on all fronts is perhaps the outstanding war news of today. The dispatch from Brest-Litovsk says that while Russia is desisting from signing a formal peace treaty, it declared the state of war to be ended with Germany, Austria-Hungary, Turkey and Bulgaria.

Details are not available, and the Russian situation may show differently when the next report comes in.

Before a hastily summoned joint session of congress summoned yesterday President Wilson drove in what many of his hearers regard as the most powerful wedge yet employed to split apart the Austro-German alliance, and to separate the people of Germany from the military masters. At the same time he gave notice that no basis for peace appears in the latest utterances of the rulers of Germany.

Simple Justice Essential.

There is a test, the President said, which would show whether it was of any avail to go on exchanging peace views and it would be made by applying the following principles:

1. Each part of the final settlement must be based upon essential justice to bring a permanent peace.

2. Peoples and provinces are not to be bargained about, but must be established a balance of powers.

3. Territorial settlements must be for the benefit of people concerned and not merely adjustment of rival states' claims.

4. Well defined national aspirations must be accorded all possible satisfaction.

"These general principles" the President said, "have been accepted by everyone except the military autocrats of Germany."

"A general peace," said he, "erected on such foundations, could be discussed. Until such a peace can be secured we have no choice but to go on."

Activity on American Front.

"Until such a peace can be secured," the President impressively declared to an audience which, on floor and in galleries, stood up and cheered, "we have no choice but to go on."

In face of the toll of the transport *Tuscania* and the announcement that Russia has definitely quit and Kharkev has signed a separate peace with the central powers, the President told a cheering audience that more American troops and always more would go on to France until a just peace was attained.

Increased activity is reported on the Vosges and in the American sector of the battle line in France.

MUST SIGN UP NOW FOR BASKETBALL

R. S. Covey, director of athletics in the Wilbarger County Interscholastic League, is making out schedule for the series of basketball games which shall determine county championship. All entries must be in by February 19.

Professor Covey has issued the following statement:

"All teachers of the county who have basketball teams in any of the four divisions that they wish to enter in the contest for the county championship, will please let me know this week, as it is time now that contests should begin. The County Executive Committee set February 19 as the date for closing the entries in basketball. A percentage method will perhaps be used to determine winners instead of the elimination method as used last year. The former method seems to be the fairer."

"Please make your entries at once, so that a schedule can be made out. Remember that the entries must all be in by February 19."

"R. S. COVEY,
County Director of Athletics."

NOT MORE THAN 2 OUNCES OF WHEAT BREAD TO PERSON

Food Administration Puts Hotels and Restaurants on Same Basis as English—May Serve Four Ounces of Substitute Breads—Two Meatless and Wheatless Days Each Week.

Hotels and restaurants in Vernon are on a bread ration. Word which put this order into effect was received locally yesterday, although the plan went into effect in many Eastern cities February 5.

Two ounces of bread or rolls is the allowance at a meal for each patron. This allowance can be exceeded only when the bread or rolls are made from corn, oatmeal or bran, and when one kind of bread is ordered. Under the latter conditions a portion may consist of four ounces. Under the new regulations, rolls are limited to a weight of one ounce apiece. This conforms to the English bread allowance.

The bread order means that when corn, oatmeal or bran bread is served alone, such service may not be more than four ounces. If a mixture of wheat bread and corn, oatmeal and bran bread is served, it would be permissible to serve one ounce of wheat bread and two ounces of corn, oatmeal or bran bread to each person.

It is said that an ordinary slice of bread weighs one ounce, and ordinarily a corn muffin weighs two ounces.

Pies and doughnuts may be served on wheatless days and at wheatless meals, providing one-third or more of wheat flour substitutes are mixed with wheat flour, for all pies and doughnuts that are served on a day during the week.

Federal License Required.

Places using as much as three barrels of flour or meal a month are required to obtain Federal license, which may be had without charge by applying to the Baker's License Division, United States Food Administration, Washington, D. C.

The following letter has been received by restaurants and hotel keepers.

"The food situation is becoming more serious; so serious, in fact, that without your earnest cooperation in fulfilling the demands of the Food Administration we are apt to be forced to conclude a Peace Without Victory. We have never lost a war, and are not going to lose this one, for we know that you will do your part."

"The food plans set forth in President Wilson's proclamation and which the Food Administration insists shall be rigidly maintained require that Monday and Wednesday in every week be observed as wheatless days, and that one wheatless meal be served every day, subject to the wheatless meal. By 'wheatless' the Administration means you must not serve any wheat products, or use wheat flour except the small amount necessary to hold together corn bread and other cereal breads.

A Meatless Breakfast.

"Have one meatless day (Tuesday) in every week and observe breakfast as meatless every day. Observe Tuesday and Saturday as porkless days every week. By 'meatless' the Administration means that you shall serve no red meat, beef, pork, mutton, veal, lamb; no preserved meat, beef bacon, ham or lard. Chili is permissible in mild form; that is, one-fourth chili and three-fourths beans. It must not be served straight."

It is suggested that persons who are somewhat unpatriotic as to kick about the strict observance of these rules be requested to put their objections in writing so that they may be forwarded to the Food Administration at Washington. As yet no one has been found who is willing to be thus permanently recorded.

Lehman Likes Camp Travis.

Edwin Lehman, son of Mrs. L. Lehman living near Rayland, who is home for a ten days furlough from Camp Travis was in Vernon today. He is with the 48th Company, 12th Battalion. Private Lehman likes army life. He says that Uncle Sam feeds and clothes the boys well, but they are expected to work. "We know what we are here for and act accordingly," said young Lehman.

CELEBRATING THE BIRTHDAY OF ABRAHAM LINCOLN

Abraham Lincoln, the sixteenth President of the United States, was born in Hardin county, Ky., February 12, 1809. When Indian hostilities began in the year 1832 Lincoln volunteered in a company of Sangamon county rifles organized in Richland, Ill., and was elected its captain. When the company was mustered out he went to New Salem, where in his first political venture he was defeated as a candidate for the Illinois Legislature. Lincoln then entered business as a general

merchant in New Salem, but met with reverses. He then applied himself to the study of law, and for a short time he was the Postmaster and Deputy County Surveyor of

merchant in New Salem, but met with reverses. He then applied himself to the study of law, and for a short time he was the Postmaster and Deputy County Surveyor of

LIMITED SUPPLY OF SEED OFFERED

COUNTY AGENT HAS QUOTATIONS BASED ON ACTUAL COST TO GOVERNMENT.

In its efforts to secure productive seed for farmers the Government is making quotations on limited amounts to any individual. The following quotations were received today by N. R. Tisdal, County Agent.

Red Top Cane, Black Amber Cane, Orange Cane, and Red Amber Cane, at \$9.25 per 100 pounds, fob, Waco. Four bushels is the maximum one farmer is allowed to purchase.

Red Milo, White Milo, and Kaffir are quoted at \$4.20 per 100 pounds, with a maximum allowance of six bushels to one farmer.

Red Milo is quoted at \$6.50 per 100, two bushels being all one farmer is allowed to purchase.

The maximum of Soudan seed allowed to one farmer is twenty-five pounds, at 20 cents a pound.

Peanuts are quoted at \$7 per 100 pounds, and one farmer may purchase fifteen bushels.

Of Melba Cotton Seed, the maximum allowance is twenty-five bushels to one farmer, and the price quoted is \$1.75.

All quotations are fob, Waco, Texas, and orders must be accompanied by Postoffice Order or Bank Cashier's Check, payable to the United States Department of Agriculture. No orders for grain sorghums for less than 100 pounds will be filled.

These prices are based upon purchases already made, and are sold at actual cost. The name of every farmer who purchases any seed must be sent in through the county agent.

A Meatless Breakfast.

"Have one meatless day (Tuesday) in every week and observe breakfast as meatless every day. Observe Tuesday and Saturday as porkless days every week. By 'meatless' the Administration means that you shall serve no red meat, beef, pork, mutton, veal, lamb; no preserved meat, beef bacon, ham or lard. Chili is permissible in mild form; that is, one-fourth chili and three-fourths beans. It must not be served straight."

It is suggested that persons who are somewhat unpatriotic as to kick about the strict observance of these rules be requested to put their objections in writing so that they may be forwarded to the Food Administration at Washington. As yet no one has been found who is willing to be thus permanently recorded.

Lehman Likes Camp Travis.

Edwin Lehman, son of Mrs. L. Lehman living near Rayland, who is home for a ten days furlough from Camp Travis was in Vernon today. He is with the 48th Company, 12th Battalion. Private Lehman likes army life. He says that Uncle Sam feeds and clothes the boys well, but they are expected to work. "We know what we are here for and act accordingly," said young Lehman.

PAYS \$20,000 FOR QUARTER SECTION

J. T. Oates has sold his farm, located four miles west of Vernon, to W. E. Cook of Canadian. The consideration was \$125 an acre, or \$20,000 for the quarter section.

Mr. Oates had lived on the place about three years. The sale price was near twice as much as Mr. Oates paid; however, he had made valuable improvements, and the farm is one of the best in Wilbarger county.

Mr. Cook was a resident of Wilbarger county until two years ago, when he sold his farm near Doans and moved to Canadian. His friends say that his return from the West signifies his belief in this country.

INCOME REPORTS GO NOW TO AUSTIN

FAILURE TO REGISTER BY MARCH 1 PUNISHABLE BY SEVERE PENALTY.

Persons required to make returns to the Internal Revenue Collector on the income tax should write to A. S. Walker, Austin, Texas, for blank No. 10404. R. M. Ewalt, government representative, left Vernon Saturday.

It is especially emphasized by those who have been studying the income tax law that all married persons with incomes of \$2,000 or more are required to make returns, even though they are not subject to the tax. The same requirement applies to single persons with incomes of \$1,000 or upwards.

Many do not have to pay the tax who earn well into the thousands. For every child under 18 years of age, a \$200 exemption is allowed, in addition to other deductions allowed is arrived at the net income. When these items are deducted many persons with large incomes pay little or no tax. But reports in all such cases are mandatory.

Monday, March 4, D. M. Barrow—Oklahoma, 9 a. m.; Elliott, 11 a. m.; Guyer, 1:30 p. m.; Harrold, 4 p. m.; East Vernon, 7:30 p. m.

J. C. Thomas—Rayland, 9 a. m.; Dailey, 11 a. m.; Parsley, 1:30 p. m.; Kincheloe, 3:30 p. m.; Lockett, 7:30 p. m.

Tuesday, March 5, Barrow—Oklahoma, 9:30 a. m.; Hauk, 11 a. m.; Maple Hill, 1:30 p. m.; Hinds, 3:30 p. m.

Thomas—Wildefield, 9 a. m.; Midway, 11 a. m.; Farmers Valley, 1:30 p. m.; West Vernon, 3:30 p. m.; Tolbert, 7:30 p. m.

All meetings will be held in the school houses and farmers are urged to attend.

Each speaker will be accompanied by a committee of local citizens interested in the work.

60 FOR CHURCH COLLECTIONS.

Young Ladies Missionary Society Also Votes Linen Shower for Kirkland Minister.

The Young Ladies Missionary Society of the Methodist Church met Tuesday with Mrs. G. C. Morris. It was study day, and the Book of John was the lesson.

A membership campaign, which had been waged by the society divided into two teams, ended with this meeting. The team headed by Mrs. R. S. McConaughy was declared winner, and will be entertained by the team in charge of Mrs. Carl King.

The Society voted to give a household linen shower to the minister who was recently burned out at Kirkland. A free will offering of \$60 was pledged to conference collections.

Mrs. Morris served a delightful sandwich course.

TWILIGHT
(By Record Staff Poet)
Beyond the hedge the joyous fields stretch out.
And there are little paths to lure the feet:
A purple bush o'erspreads the glowing west.
Where earth and sky in glorious sunset meet.
Dull purple haze veils spectral hills of earth.
The sunset flame across the mountain dies;
The gloaming gathers in around my ~~earth~~
And twilight, trails her robe across the skies.

INTERSCHOLASTIC LEAGUE ANNOUNCES PLAN OF CONTESTS

Executive Committee Finds That
Four-Fifths of Schools in Wilbarger County Have Membership—Will Hold Contests in Debate, Declamation, Spelling, Essay Writing and Athletics.

Four-fifths of the schools in Wilbarger county are members of the State Inter-scholastic, according to a report from the Executive Committee, which met in Vernon Saturday. Reports coming in indicate a hotly contested county meet.

It is hoped that all schools not now members of the League will join at once; first, for the purpose of giving their pupils an opportunity to participate in the contests; and second, in order to insure a more interesting county meet.

A membership fee of \$1 entitles the principal of the school to all literature of the league, which gives instructions concerning, and explains, the various contests. This fee also entitles all pupils of the school to enter any one, or all, of the contests, including the county, district, and State meets. The fee may be paid to the Director-General, H. L. Porterfield, Oklaonion, or sent direct to Austin.

Contests in March.

The League will hold the following contests this year: tennis doubles for boys, basketball for girls and boys, track and field events for girls and boys, debate for boys, junior and senior spelling for boys and girls, junior and senior declamation for girls, same for boys, declamation for rural school girls and boys, and essay writing.

Each school is permitted to enter two contestants in spelling, one junior, and the other either junior or senior. Entries should be made to the Director of Spelling, L. A. Hellar, at Vernon, not later than March 20. The contest will be held March 29 in the district court room at Vernon.

The subject for essay writing is "What I Have Done to Help Win The War." Essays must not be more than 1,000 words in length, must be written in ink or on a typewriter, on one side of the paper, which shall be 8 1/2 by 11 inches, and shall be signed by a fictitious name. The real name and address of the writer are to be written and placed in a sealed envelope which will accompany the essay.

These essays must be sent to Miss Theresa Hazard, Director of Essay Writing, at Vernon, not later than March 1. Miss Hazard must send them to the district judges by March 15.

Patriotism to Be the Theme.

It is particularly desired that every school in the county encourage its students to try out at essay writing, because of the subject and its connection with the great crisis through which the country is passing.

The debating and declamation contests will be held in Vernon March 29. The question for debate is: Resolved; That Girls Should Be Allowed to Debate in the Interscholastic League on Equal Footing With Boys.

Declinations for the junior girls must be selections from standard poems, while all others shall consist of prose selections from some standard author or well known speaker. It is provided that all declinations shall be of a patriotic nature. Entries in debating and declamation contests are to be made with Professor J. N. Fulcher, Director of Declamation and Debate, Tolbert, Texas.

Rules concerning the athletic events will be announced Friday.

Porterfield Out of Hospital.

Sergeant James D. Porterfield of the 48th Company, 12th Training Battalion, 165th Depot Brigade, Camp Travis, has just returned to duty from the hospital where he was sick for five days. Sergeant Porterfield is attending the School for Non-Commissioned Officers, and in an examination given Saturday, his

WEST VERNON HAS FINE HONOR ROLL

ELMER HISE, EURA McDANIEL
AND EVERETT COOK STAND
FIRST.

West Vernon, Feb. 11.—(By special correspondence.)—Those pupils who have good lessons and are not absent or tardy secure a place on the Honor Roll. The following pupils met the requirements this month: Second grade, Percy Vaughn; third grade, Claudie Cagle, Nila Cook, Minnie Withers; fourth grade, Clifton Withers, Lola Thomas; fifth grade, O. C. Awtry, Annie Cagle, Pauline McCaleb; sixth grade, Minnie Martin, Tommey Awtry, Velma Thomas, Olney Dunson, Bradford McDonald; seventh grade, Elmer Hise, Elton Cook. Elmer Hise made the highest average in the high room, his grade was 95 2/7 per cent.

Eura McDaniel led in the intermediate room with an average of 92 7/9 per cent. Two others, Martha Tiroff, with an average of 92 2/3 per cent, and Clara Tiroff, with an average of 92 5/9 per cent, came so close as to deserve special mention.

Everett Cook made highest average for the primary room, his grade was 90 5/6 per cent; Beatrice McDonald, with a grade of 90 4/7 per cent, and Patrye Inez Thompson, with a grade of 90 per cent were next.

The West Vernon auxiliary of the Red Cross held their first meeting in the work room at the school house Thursday afternoon, February 6. Eight women were present. Much interest was manifested and a good deal of work was done.

The work room is now complete. The lumber for the table was donated by Cameron Lumber Company, the machine was furnished, rent free, by W. C. Hawkins.

The Junior Red Cross auxiliary has been completed in the school. An amount equivalent to 25 cents for each pupils was made up. \$24.50 was the total.

The question of having school on Saturday is before the patrons of the school. If it is desired by a majority to have school on Saturday in order to finish earlier in the spring, the plan will be adopted.

On severe days the play time is cut short in order to conserve fuel. Those patrons who come for their children may come at 3 o'clock on those days.

The pupils of the school are preparing a patriotic program for February 22.

Deans Woman Champions Chickens.

Mrs. Wallie Wanner, who lives near Deans, believes that every farm should have a good drove of chickens. They are profitable, she says, if properly taken care of. Mrs. Wanner has sixty young hens. She bought two fine cockerels Saturday.

HERRING-BENNETT LUMBER COMPANY

GOVERNMENT SAYS EARLY CHICKS BEST

LATE HATCHES ARE CAUGHT BY HOT WEATHER AND STUNTED.

The government is urging increased poultry production and calls attention to the fact that early hatching this spring will go further than any other one thing toward bringing this about. It wants to see on every farm this summer birds that were hatched early enough to reach an age where vigor is insured before hot weather comes on, before that season when mites and lice begin preying on the fowls. It wants birds that will have matured early enough next fall to begin their laying in the winter time. It wants the cackles of the laying hen to be sounding in the cause of freedom when the snow is on the ground next January.

Late Hatching Bad.

The government wants the farmers to get away from the old custom of delaying hatching until warm spring weather is assured, for often this is so late in the season hot weather catches the birds at a tender age and their growth is delayed and they become stunted. Such pullets do not begin laying until the following spring, at a time when eggs are being gathered for setting purposes. The hatches from such fowls brought off too late are in turn caught by the hot weather and reach maturity in worse condition than did their dams, and as this cycle goes on the flock continues to degenerate.

Such birds are not rustlers, they fall easily prey to disease, and their powers of reproduction are limited. Often an effort is made to put them in laying condition by careful feeding, but to no avail. They are done for. They are like the bad boy; being unfortunate in their choice of parents their capabilities are limited.

Full Grown Before Hot Weather.

So as the profit will be to the grower who has eggs for the market in winter, and not alone because of the increased food production, the government wants every farmer to take a look at his fowls this winter, find those that are thrifty and producing eggs now and select them for breeding stock. Then get some eggs into an incubator early enough this spring to have the chickens well advanced in growth when the hot weather comes on, then repeat the process next year.

By actual demonstration the government has proven the wisdom of such a course. It's the thrifty early hatched bird that's going to pay the mortgage and put omelets on the table oftener, says the Kansas City Star.

Even though the hens are incidental and merely a side line on your farm, even though they are kept just to clean up the waste grain about the feed lots, let them be of the right sort, for grain is just as completely lost when it is eaten by a nonproductive hen as though it were trampled into the mire by the cows.

WATER NECESSARY FOR POULTRY

Drinking Vessels Should Be Kept Free
From Dirt and Well
Cleaned.

A supply of pure drinking water frequently renewed is as necessary for poultry as sufficient supplies of food, says the Kansas City Star.

There are two different types of drinking vessels for poultry in common use: Open vessels—pails, pans, crocks and the like; and drinking fountains so constructed that dust and dirt cannot get into the water except by way of a very small exposed surface.

These quite opposite types of drinking vessel are about equally popular with poultry keepers. Open vessels catch more dirt and dust, but are more easily cleaned. Closed fountains may be used much longer without cleaning, but if allowed to become foul are harder to clean thoroughly.

Placing open drinking vessels on a shelf a foot or more above the floor prevents the hens from scratching coarse litter into them, but does not keep out fine dust which floats in the air and settles in the water.

Thoroughly rinsing open vessels once a day and scalding drinking fountains once or twice a week will usually keep them as clean as necessary.

Vernon High Beats Electra 28 to 23.

The Vernon High School defeated Electra on the local basketball court Saturday by a score of 28 to 23. Electra was in the race for the championship of Northwest Texas, and had won eight consecutive games. Saturday's defeat was their first. The Vernon basket tossers were badly outclassed in weight, but surpassed in passing the ball.

CARE OF BROOD SOWS.

Exercise and Proper Feeding Are Necessary to Produce Good Litters.

The sows that will farrow in March and up to the middle of April have already been bred. If these sows produce good, strong, vigorous litters and get these pigs through successfully to weaning time they must be properly cared for from now until the day of farrowing, says the Kansas City Star. One of the biggest hindrances to the sows' farrowing good, strong, vigorous litters is lack of exercise. During the cold and snowy weather hogs like to lie around the sleeping quarters and be comfortable. That, however, is just why they should not do all the time, advise the specialists of the United States Department of Agriculture.

The proper exercise for a brood sow is that which she will take voluntarily and not through force. They should get their corn ration by hustling for it in the stalk fields and not by getting it fed around the sleeping quarters, on feeding floors, or in troughs. Feed them ear corn during the winter months and scatter it out in the stalk fields. The manure spreader is a good implement to use in scattering this corn. Don't be afraid it will be wasted, for it won't. You can readily regulate the amount fed so that it will be picked up clean, and you will find next spring that there is not a bit of the corn lying around to go to waste.

Protein feeds in the form of snorts, tankage, oil meal, or alfalfa hay should be supplied. Self-feeders can be used for these feeds and it is quite successful to grind the alfalfa hay. Sows will eat a larger percentage of alfalfa hay fed in the ground form than when fed in racks unground. This alfalfa is generally cheaper on the corn belt farms than any of the other protein feeds and is a good balance to the corn ration.

By following a few of these simple methods the sows will be brought to farrowing time capable of producing good strong pigs. Every hog grower knows that if he is going to have pigs that do their best from the start they must necessarily be strong and vigorous at farrowing time. The proper care of the brood sow is not difficult and should be carefully looked after by every hog grower.

Honoring Recent Bride.

Mesdames E. P. Hicks, A. C. Boger, J. S. Cook and L. G. Hawkins entertained with "Frolics" Saturday, at the residence of Mrs. E. P. Hicks on West Paradise street.

The party was given in honor of Mrs. Arch Collins, of Hereford, Texas, a recent bride, and Mrs. John Housseen of Long Beach, Calif. Refreshments were served at the close of the games. Nine-tenths of the guests were present.

BROWN LITERARY MEETS.

School Society Will Give Program Every Second Friday Night—

Farmers Are Plowing.

Brown, Feb. 9.—(By special correspondence)—The Brown literary gave a program on February 1. Owing to the severely cold weather only a small crowd attended. A program will be given every second Friday night.

Rev. O. L. Orr, Baptist county missionary, preached here Thursday night. Howard Whiteside assisted in the singing.

S. C. Hawley lost two horses during the recent cold weather.

Flake Lauderdale, son of Mrs. M. M. Lauderdale, is on the sick list.

Mrs. H. T. Wadrip and children are recovering from an attack of measles.

Some of the farmers have started plowing.

Chickens! Chickens!

We are paying 20 cents per pound for hens. This is the highest price ever paid in Vernon for chickens. Bring them in while the price is right.

G. B. ZACHRY, 7-1/2-tp Adv. Phone 286. Summerour Bldg.

Mrs. W. A. Lyon and little son left Saturday night for Weatherford, to visit with Mrs. Lyon's mother for a week or ten days. Mr. Lyon expects to join them the last of this week.

BUTCHER REJOICES OVER WIFE'S RECOVERY

"My wife suffered for five years and practically lived on toast and hot water. Doctors said she would have to be operated on for gall stones. A lady advised her to try May's Wonderful Remedy and after taking 4 bottles over two years ago she has been entirely well ever since. It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. It is a simple, harmless preparation that removes the catarrhal mucus, etc." One dose will convince or money refunded. Adv. 1-tp

We write all kinds of insurance. Will appreciate a portion of your business. All losses adjusted promptly. Give us a trial. Office: Hotel Vernon, Phone 109.

E. L. Witty & Co.

DINNER ON THE GROUND.

Mr. Zion Baptists Will Make All-Day Meeting of Educational Campaign.

Dinner on the ground will be feature of the educational rally to be held at Mt. Zion Baptist Church Saturday night and Sunday. Beginning at 7:30 o'clock Saturday, Rev. W. W. Adams

will talk on "Enlistment of Churches in Education." At 8 o'clock Professor J. N. Fulcher will speak on "The Denominational Value of Christian Education."

Tom Duke will conduct Sunday school at 10 o'clock Sunday morning. Other speakers before noon Sunday will be W. N. Stokes on "Christian Education in Civilization," and J. M. Hale on "The Need of Christian Education in This Hour of Crisis."

At 2 o'clock Sunday afternoon Mrs. Annie Wood will talk on "What Our Women Can Do to Help Win This Campaign" at 2:30 o'clock, W. N. Stokes will speak on "Kaisersmism vs. the Christian School." He will be followed by W. W. Adams, who speaks on "This Campaign and How to Win It."

G. T. Oliver of Amarillo is in Vernon looking after property interests.

The War Menu.

Sing a song of johnny cake, graham bread and rye.

Fish and eggs and fowl and fruit, less of cake and pie.

Wheatless, meatless, sweetless meals—the kaiser's strength will puncture; Isn't that the proper thing at just this present juncture?

—Roy Temple House in the Kansas City Star.

Just as an egg deteriorates from the nest, so does coffee from the roaster—

"Who Can Beat It" is fresh every day. Roasted in Wichita Falls, for sale by McCleve and Parker-Smith. Adv. 7-3/4-tp

For sale cheap and good terms with small cash payment: 140 acres fine sandy loam land, good 5-room house, well and windmill, sheds, barns, fencing, other valuable improvements. \$68 an acre will buy this choice farm with only \$4,000 cash, the remainder in five equal annual payments, 8 per cent interest. See J. R. Jones at once, because this farm won't be on the market but a few days. Adv. 4-tp

Stereopticon Views for Elliott School.

R. C. Poteet, principal of the Elliott school, was in Vernon Saturday, looking after some incidentals in regard to the stereopticon views which he expects to show his school this week. Professor Poteet secured the lantern and plates from the Extension Department of the University of Texas.

Cream Not Affected.

There is no state law requiring tuberculin tests of dairy cows, as provided in the city ordinances. This does not affect the sale of cream by farmers and I will continue to buy and ship cream. 7-2-tp Adv. G. B. ZACHRY.

Notice.

All parties who get their mail at Tolbert postoffice and own automobiles. Phone me your orders now. E. P. Robertson. Adv. 2-tp

White at the White City Store. 7-4-tp

The season of the year when all our stock and poultry need more attention is at hand. We have a full line of Uncle Sam's Stock and Poultry Powders and Remedies. Call to see our line before buying.

THE GREATEST AMERICAN

Nine years more than a century ago today Abraham Lincoln was born. Looking across the stretch of fifty years since the assassin's bullet snuffed out his life, the general verdict is that he was "The Greatest American."

Unfortunately we pay little homage to the natal day of the Great Emancipator. However, to paraphrase his own immortal words, in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow—his birthday. The tasks which he performed, the burdens which he bore, the sympathy which he gave to broken-hearted mothers and fathers during the terrible days of sixty-four consecrate the man and his birthday far above our power to add or detract.

It is fitting, at this time, that we all rededicate ourselves to the task which Lincoln championed—the rights of humanity against the encroachments of power.

Perhaps the lesson from Lincoln's life which we need most to get in this hour of crisis is his abiding faith in the conquest of right and the sure reward for unremitting endeavor.

The example of the boy Lincoln stretched on a dirt floor, mastering his few books before the flickering flame of a pine torch, shames the average Twentieth Century boy, and most of the fathers, who falter at the simple tasks thrown upon us by the great world struggle for human rights. And while the production of war gardens, the observation of wheatless and meatless days, the purchase of Thrift Stamps, War Savings Certificates, and Liberty Bonds seem infinitely trifling, yet the spirit that ignores the necessity for cooperating in these small ways, is the one that would break under a large burden. When we fail here we dishonor America and all of those Americans who have given, and are giving, their souls for the cause.

With the news that Russia has signed a treaty with Germany and is withdrawing her armies, we need, more than ever, to bend our shoulders to the tasks assigned us, vital though small, in the work of winning the struggle.

At this momentous hour, pausing for the natal day of Abraham Lincoln, we can do no better than remind ourselves of his prophetic words—"The result is not doubtful. We shall not fail—if we stand firm, we shall not fail. Wise counsels may accelerate or mistakes delay it, but, sooner or later, the victory is sure to come."

The proposal to put into effect modes of living which shall result in the substitution of daylight for electricity and kerosene has already met the approval of the United States Senate. If Congress agrees every American will save approximately one hour of daylight out of each twenty-four between March and October. Whether our clocks are to be set forward, or an order issued to begin activities one hour earlier and retire for the night accordingly, matters little. That the plan worked admirably in France is warrant for the belief that it would prove successful here. In fact, is there any rea-

son why we should not avail ourselves of daylight in exchange for artificial illumination? Mathematicians have figured that a city like Chicago would save more than \$6,000,000 a year from an exchange of this kind, or Texas would save nearly \$10,000,000 from the plan. We venture that the loudest objections would not come from courting swains, but crusty old bachelors who insist on eight o'clock breakfasts.

One Year \$1.50

Vernon, Texas, Tuesday, Feb. 12, 1918

The food situation is not serious enough yet to warrant the adoption of Senator Reed Smoot's suggestion for a fast day each month, even though many physicians insist that the following out of such a plan would drive them out of business by curing so many of the sick. The suggestion of a fast day will, perhaps, fix more powerfully in the minds of the general public that there is acute suffering because of insufficient food in parts of the world, and that when we waste so much as a crumb of bread we are taking a morsel from the mouth of one of our allies. Is it any wonder that thinking Americans discount the patriotism of the man or the woman who shouts for "Old Glory," and then refuses to observe one wheatless meal a day or substitute corn meal, rice, or other similar articles for wheat?

People come to know just what this

(Copyrighted by Holland's and Farm and Ranch)

The Advertised Trade-Mark Enables You to Obtain a Standard Article at a Fair Price.

Both of these results are desirable—a STANDARD ARTICLE and a FAIR PRICE. Either one is to be desired by the consumer. But when both go hand in hand they form the ideal combination.

These results are brought about by advertising the product and then identifying it by means of a trade-mark or brand name.

When a product becomes known to the consuming public through advertising, it tends to become STANDARDIZED. Being produced on a large scale, it naturally follows that there comes to be a uniformity of quality of the different units. Each unit is exactly the same as every other unit bearing that label.

People come to know just what this

product is. It stands for something definite. It represents a definite value characteristic of this particular product. It becomes standardized.

In addition to this, the very fact that it does become standardized and known makes possible a greater market for it. This greater market makes possible the economies of large-scale production. That is, a manufacturer who produces 10,000 units of a product can produce each unit more cheaply than the manufacturer who produces but 10,000 units, through having more improved machinery, being able to carry the specialization of labor to a greater degree, having less waste, and having more units of production to bear the expense of general management and overhead.

The result of this large scale production is a lower price to the consumer per unit.

J. M. KING HEADS OKLAUNION FARMERS

S. P. CLEMENT AND H. E. HAUSER ARE OFFICERS OF CO-OPERATIVE ASSOCIATION.

Oklahoma, Feb. 11.—(By special correspondence)—About thirty of the farmers and business men of Oklaunion met at the school house on last Friday night and formed an organization known as the Oklaunion Co-operative Association. The following officers were elected: President J. M. King; Vice President, S. P. Clement; Secretary-Treasurer, H. E. Hauser; Product Agent, J. F. Stark; N. R. Tisdal and L. A. Hollar of Vernon were present and spoke on some of the ways in which the association can aid in winning the war. The purpose of the organization is for a closer cooperation in general community affairs. One of the first steps to be taken is the securing of seed for the coming crop. Those present were very enthusiastic over the meeting.

During the past week the Oklaunion school has been enjoying a series of stereopticon lectures given by the members of the faculty. The lectures were along the development of rural life, and kindred subjects.

Cadet Carl Smith of Camp Bowie, Fort Worth, visited his mother, Mrs. L. M. Smith, during the past week.

Commissioner Rex Boyd has been called to the bedside of his uncle, who is seriously ill at Pine Bluff, Ark.

Mrs. Fennel is seriously ill at her home in Oklaunion.

Friends of Mrs. Roscoe Rainwater will be glad to know that she is rapidly recovering from a recent operation.

Ercell Brooks has returned home from Decatur Baptist College.

Mrs. John Catlin of Dallas has been visiting her mother, Mrs. Geo. Lemon.

County Superintendent L. A. Hollar, N. R. Tisdal and Miss Mary Sue Madox visited the school last Tuesday and organized the boys' and girls' agricultural, poultry and canning clubs. About twenty members were secured for these clubs.

Dances were given during the past week at the home of Messrs. Curt Gore and John Williams.

The people of the Christian Church hope to occupy their new building within a short time, as it is almost completed.

Miss Mabel Reeder has been ill at her home during the past week.

The sale of Thrift Stamps at the local postoffice reached a total of \$225.

Miss Mabel Reeder has been ill at her home during the past week.

The sale of Thrift Stamps at the local postoffice reached a total of \$225.

The Fair has become headquarters for Winona Mills line of hose and underwear for men, women and children. If you wish to place an order before I can see you, would thank you to leave your name and orders and I will call at my earliest convenience.

Yours for service, P. E. Phillips. Adv. 5-4t

Notice These Real Estate Prices.

148 acres, good sandy land farm, nearly all in cultivation, about 10 miles from Vernon, good improvements, 5-room house, well and windmill. Good barn and orchard. Rented for 1918; purchaser to get rent at the very low price of \$35.00 per acre.

Nearly 2 acres and 5-room house, good water, sheds, lots and shade, for rent or sale, at sacrifice price of \$1,050. Can take good team in as part payment.

Three 50x120 foot lots, new box house 16x18, good well of water, storm house. Any one wanting to buy a small place, can buy this one if they have any money at all. Place is situated in best part of town.

Most any kind of house for rent or sale. Adv. 7-4t. See J. R. JONES, Agent.

I am offering the following well located property for sale or trade, cash or terms. One modern cottage containing five rooms, bath and kitchen, parlor, two blocks of Main street, sidewalk, water and sewer, also electric lights; one nine-room house, two acres of ground in good location just in edge of town. One four-room bungalow, east front, close in. A. P. Peck. Adv. 2-4t.

PARENT-TEACHERS MEET FRIDAY.

"The High School Problem" Will Be Discussed at The Shive Building This Week.

"The High School Problem" will be the subject for discussion at the meeting of the Parent-Teachers' Association Friday, February 15. The meeting will be in the Shive building on West Texas street, at 3:30 o'clock.

Professor Knox Kinnard will discuss "Irregularity of Attendance." A Place for Home Study will be the subject of a paper by Mrs. S. W. McLeary. Mrs. Howard Reger will talk on "The Proper Educational Attitude." Mrs. J. Myatt Napier will discuss "Making School Life Pleasant and Interesting."

A business meeting of importance will also be held.

Eight Hours in Sand Storm.

Mr. and Mrs. T. T. Weatherall drove through in their car from Memphis to Vernon last Friday. They left Memphis about eight o'clock in the morning and were soon struck by a sand storm, arriving at home at five-thirty.

PEANUT IS BEST SUBSTITUTE FOR MEATS AND FATS

Former Manufacturer Says Tex-as Leads Union in Acre Production—Little Work and Expense, But Big Profit—Nut and Vines Both Valuable for Feed and Food.

Peanuts which are raised in large quantities, are being substituted satisfactorily for meats and fats, two foods needed for shipment to the American and allied soldiers in Europe, according to C. T. Jackson of Dallas, founder and operator of the largest peanut "factory" in Texas.

Peanuts have advanced from \$1.35 a bushel to \$1.75 a bushel in twelve months, and Mr. Jackson attributes this to the war. He says that peanut oil contains a larger percentage of glycerin than any other oil, and, as glycerin is used in the manufacture of explosives, has a higher value while a big war is in progress.

Mr. Jackson says that peanuts can be raised with little work and little expense on inexpensive land, and as the products sell for a high price, the farmer makes good profits from the crops.

Handled Million Bushels.

"My factory handled about 1,000,000 bushels of peanuts last year," Mr. Jackson said. "The Texas crop probably amounted to 3,000,000 bushels, or 3,000 cars of 1,000 bushels each. Peanuts in the shell, or farmers' stock, advanced from \$1.35 to \$1.50 last season. The price is now \$1.75.

"No. 1 peanuts, or whole peanut kernels, and No. 2 peanuts, or half peanut kernels, are sold to candy factories or to makers of 'salted peanuts.' These are too valuable to be crushed for oil. Oil is made out of the broken pieces or scraps. The pulp left after the oil has been extracted is made into meal and cake, which are excellent stock foods.

"The farmers of Texas are planting more and more peanuts each year, because they are gradually beginning to realize that the profits are large, considering the quality of land adapted to their culture. Red land, blow sand, loose sand and other loose-natured soil, where there is plenty of moisture, will produce peanuts. The raising of peanuts is developing rapidly in East Texas, where the soil is particularly well adapted to the production of good peanuts.

Texas Leads Union.

"Texas produces more peanuts per acre than any other State in the Union, and the peanuts are of a better quality. About twenty to thirty bushels of peanuts are raised on an acre of well adapted soil. The peanuts sell for \$1.75 a bushel, and the tops of the peanut plants on an acre make three-fourths to one ton of hay, which sells for \$30 a ton. The hay will pay for the production of the crop.

"I have received reports from many sections of East Texas, stating that many good peanuts are being raised there.

"No part of the peanut is wasted, as in cotton. Peanut oil is white and almost odorless and makes the finest kind of cooking oil. It is also used for the making of compound lards and oleomargarine. The time will come when peanuts and peanut oils will be worth more. Americans have not yet learned how to make machinery which will extract the high grade oil from the peanut as well as the machinery used in France.

Chicago Principal Market.

"Chicago is the largest and best peanut market in this country. I have sold \$180,000 worth of peanuts at one sitting in Chicago. Many candy factories and a few roasters in Texas use large quantities of peanuts, but they can not handle the production of the State.

"When a 'peanut manufacturer' starts handling the by-products of peanuts he becomes a competitor of his own customers, which has many bad features.

"The market for peanuts is unlimited and there is ready sale for all that can be produced. Peanuts produce about 60 per cent oil. The crude oil sells for \$1.35 to \$1.40 a gallon, and it takes about one bushel of peanuts to make a gallon. Texas has more land adapted to the raising of peanuts than any other farm product, and has more good peanut land than any other State.

Harvest in October.

"Peanuts should be harvested in October—usually. I know one man who raised 100 bushels of peanuts to the acre, but all conditions were ideal. Peanuts will grow as thick as they can be planted and will kill Johnson grass. The crop is worth too much for hogs to be turned into the fields. However, after the peanuts have been harvested, the hogs can be turned into the fields, where they will root up plenty of pean-

nuts to feed and fatten them for some time.

"When we first started our mill we give away the sand screenings, produced by sifting the sand from the peanuts. Later we found that a sufficient quantity of broken peanuts was contained in these siftings or screenings to feed and fatten a large pen of pigs. We immediately stopped giving away this by-product and effected a large saving.

"I believe that people could exist for a long time on peanut butter and crackers alone."

WANTS MORE CLERKS.

Government Representative Will Give Examination in Shorthand or Typewriting February 15.

An examination for clerks with knowledge of stenography or typewriting will be given in Vernon Friday, according to advice received from Wayne J. Holmes, local secretary of the Civil Service Commission. Other examinations are scheduled for March 15 and April 15.

The examination is open to both men and women, who are wanted in the Departmental Service at Washington, D. C., at entrance salaries ranging from \$900 to \$1,200 a year.

In the test in stenography, in lieu of dictation, competitors will be furnished with a printed exercise, which they will be required to write in stenographic notes. The exercise will contain 330 words. If the notes are written in three minutes, 100 per cent in speed will be given; four minutes, 90 per cent; five minutes, 80 per cent; six minutes, 70 per cent; seven minutes, 60 per cent; eight minutes, 50 per cent.

The typewriting tests will consist of an exercise in copying from plain copy and one in copying from rough draft, with a weight of 35 per cent for each, and a rating on time, computed on the total time consumed in the two typewriting tests, with a weight of 30 per cent.

Competitors who attain a rating of as much as 40 per cent, but not as much as 70 per cent, in either shorthand or typewriting, as above described, will have their names placed upon the register for clerk with a knowledge of stenography or typewriting, provided they also secure an average percentage of at least 70 in spelling, copying from rough draft penmanship, letter writing, and arithmetic.

Applicants must have reached their eighteenth birthday on the date of examination.

Gasoline Machine Gun.

A gasoline machine gun shooting twenty thousand times on one gallon of gasoline and firing once a second, has been invented by James A. Wagner, an Atchison County, Kansas, farmer. Gasoline costs about twenty-five cents a gallon. To shoot the same number of bullets \$1,000 worth of powder is required and \$1,500 worth of brass shells. Explosion of the gasoline is the force behind the bullets, which are said to have more speed than those fired with powder.

If your ignition is bum, try Atwater Kent, kept in stock for all makes of cars at the Hampton Garage, sold and installed under a positive money back guarantee. Advt. 6-4tp

ATTENDANCE GOOD AT ODELL SCHOOL

COUNTY WORKERS MAKE VISIT TO INTEREST PUPILS IN CLUB WORK.

Odell, Feb. 9.—(By special correspondence.)—A few pretty days this week have made all feel like rushing out of doors into the sunshine. Attendance at school is better than for several weeks.

L. A. Hollar, county superintendent, N. R. Tisdal, farm demonstrator, and Miss Mary Sue Maddox, in charge of club work for girls, were here Thursday to organize boys' and girls' clubs. The talks were well taken by the student body, and it is likely Odell will have active clubs in canning and sewing, poultry growing, pig, and farm crop production.

J. R. Huie's store was entered through a back window Thursday night. The safe had been left unlocked, and the prowler removed therefrom \$40 and a pistol. No groceries were missed, nor did the papers or books show signs of molestation.

G. M. Still was to start today on a trip east. He is to spend some time in Arkansas, and then may visit his old home in Georgia.

Frank Gearhart has made arrangements to open up a tailor and shoe shop in the building now being used by the boy scouts.

Mrs. Mollie Kendall and daughter, Miss Effie, have gone to Decatur, where they will make their home for awhile with Mrs. Kendall's son John Kendall.

Clarence GaGle, son of Mr. and Mrs. S. W. GaGle, has a broken arm as a result of trying to crank a Ford car on the streets here.

Dan Carter of the Jackson Springs neighborhood, was in Odell recently. He underwent an operation for appendicitis at Dallas shortly after January 1, and has not yet regained his strength.

E. Davee, a prominent farmer of near Fargo, returned Tuesday from Mills County, where he went a fortnight ago to be with his mother, who died while he was there. Sympathy is extended to the bereaved son.

Miss R. H. Gearhart of Erick, Okla., is visiting relatives in Odell.

Another Chance for "Dobbin."

With motor car manufacturers patristically turning to war production, "Old Dobbin" is coming back to his own on the farm, manufacturers of buggies and farm wagons assert. Short hands and ability to maneuver his way over any kind of a road are "Old Dobbin" specialties and his superior as a first ride to courtship has not yet been found.

Last year 382,288 buggies were manufactured, statistics compiled by dealers show.

Chickens! Chickens!

We are in the market for all your chickens and will pay you highest market price.

G. B. ZACHRY, Summerour Building, Phone 286. 3-1f

PLANNING TO HELP FARMERS GET SEED

GOVERNMENT OFFICIALS OPEN OFFICE IN KANSAS CITY TO RELIEVE SHORTAGE.

The Western farmer never faced so serious a situation in regard to seed as he does now. This is especially true in the case of corn and the sorghums. To assist in finding all available seed supplies, and give information to those who need seed, the United States Department of Agriculture has established a seed reporting service in connection with the bureau of markets. A branch office has been established at 221 Produce Exchange Building, Kansas City, with William E. Kuster in charge, for the benefit of farmers in Missouri, Iowa, Nebraska, Kansas, Colorado, Oklahoma and Texas.

A publication known as the Seed Reporter will be issued the first week in each month and at such times as may seem desirable. This will be mailed free of charge to any person desiring same and upon application their name will be placed on mailing list.

Material to be included in the Seed Reporter will cover or touch upon the following subjects and others that may arise from time to time relative to the production, handling and marketing of seeds: Seeds, crop movement, receipts and shipments, imports, available supplies, demand, prices, quality and commercial varieties of seeds. From time to time special reports will be issued, giving a survey of special crops, such reports to cover the whole field of market information available at the time the report is made. Any forecasts that may be made by the bureau of crop estimates, as to production or condition of seed crops; activities of the department committee on seed stocks in handling special seed problems of the department, and in correlating the work of the various projects relating to seeds; any work that is being done by crop specialists in the bureau of plant industry or elsewhere, with special reference to seed crop production, improvement or conservation; and any items of seed information that would be of interest and value to seed growers and dealers and which would be appropriate for publication in an official periodical of the department, will be given when space and time will permit.

To anyone desiring information pertaining to the above service, the office is at their disposal. Any information relative to local seed conditions, movements, prices, supply or demand, would be appreciated and the seed reporting service wishes to co-operate with dealers, country shippers and farmers in order that the department may be able to stimulate agriculture and facilitate marketing of all seeds.

I have bought a carload of genuine Mehane cotton seed from Lockhart, to be sold at \$2.50 per bushel. M. G. Neathery, North Main Street. 4-8f

50-tf. Adv.

5,000 Per Cent Profit

A young man invested \$20 in a thousand-dollar life insurance policy. Before he paid any more, he died. His widow and children promptly received \$1,000.

IT PLACED THEM ABOVE WANT.

Make a similar investment for your family. They may realize the same per cent on it—for you will die as quickly without it as you will with it.

Let us hope, however, that there will be no occasion. But wouldn't you like to make them safe?

Step in and let us explain some attractive policies we are writing—policies that make you safe while you live and your loved ones safe after your death. Or, you might drop us a card; one of our representatives will be glad to call.

The Thrice-a-Week Edition of the New York World in 1918

Practically a Daily at the Price of a Weekly. No Other Newspaper in the World Gives So Much at Low Price.

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war, and a large army of ours is already in France. You will want to have all the news from our troops on European battlefields, and 1918 promises to be the most momentous year in the history of our universe.

No other newspaper at so small a price will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Vernon Record, together, for one year at \$2.15.

The regular subscription price of the two papers is \$2.50.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is in a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sore or infection, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, nothing can be done to cure deafness. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Drugists, 75c.

**LAST WORD IN
WORLD WAR NEWS**

People in This Section Now Have a Chance to Keep as Well Posted as Those of New York City on War

The remarkable progress of the Wichita Morning Tribune is being freely commented upon in this section by reason of the fact that it gets here with the latest news of the war as well as containing other matters of interest. The Tribune carries the full Associated Press news.

The train schedules are so arranged that The Tribune has many advantages over other papers and its success seems assured.

The bargain rates now offered are \$3.50 for the daily and Sunday and \$2.75 for the daily only, effecting a big saving to subscribers in spite of higher costs of paper and production.

We are also making a clubbing rate with The Tribune and will send you the Twice-a-Week Vernon Record and The Tribune daily and Sunday for \$4.50, or if you want the daily Tribune, without Sunday, the rate for the Vernon Record and the Tribune will be \$3.85. We will be glad to handle your subscription.

Energetic men and women are wanted in every community to represent the Wichita Morning Tribune, Wichita Falls, during great bargain day offer. Good pay. Write today. Adv. 1f

**COLORADO-TO-GULF
ROUTE NOT NAMED**

**CLAIMS OF ROUTES SOUTH OF
FORT WORTH TO BE HEARD**

FEBRUARY 26.

J. D. Parnell, secretary of the Colorado-to-the-Gulf Highway, returned Saturday from a trip of inspection in company with D. P. Tally, president, of Wichita Falls, and W. G. Bruce, vice-president, of Childress. The purpose of the trip was to designate a route between Fort Worth and Waco.

The committee found routes proposed via Cleburne, Meridian, Clifton, and Waco, to Galveston via Bremond; via Grandview, Itasca, Hillsboro, Waco, and Bremond; via Waxahachie, Hillsboro, Waco, and Bremond; and via Waxahachie, Ennis, Corsicana and Bremond. Then, a route was proposed via Waco, Temple, Austin, and San Antonio, to Corpus Christi.

Because of the multiplicity of routes proposed selection was postponed until February 25, at which time representatives of all the proposed routes will place their claims before the committee in Waco.

Great interest is being manifested along the route in the proposed information bureau to be established in Vernon, since this is the half-way point between Galveston and Denver, and the headquarters of the association are located here.

Little Sickness at Parsley School.
Prentiss Long, who teaches at Parsley School, says that there has been relatively little sickness in that community this fall. Parsley is one of the few schools which has not had its work badly broken into by measles, mumps, or laryngitis.

I have bought a carload of genuine Melane cotton seed from Lockhart, to be sold at \$2.50 per bushel. M. G. Neathery, North Main Street. 4-8tp

Judge and Mrs. W. N. Bonner of Wichita Falls visited the latter's parents, Mr. and Mrs. H. F. McKibbin, Sunday.

Coca Cola. We mean real Coca Cola that is served right. You can get it at Pendleton's fountain. Adv. 8-2tp

**TAKE
CARDUI**

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help.

"I was taken sick, seemed to be", writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when rundown. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.
